About me:

In the state of Santa Catarina where I am based, I have recently graduated secondary college and obtain professional experience in the hospitality area of restaurants, cafes, bars and hotels.

During this time, I have received exceptional evaluations from my respective supervisors regarding my professional obligations in all hospitality employment stating that I thrive due to my competence, commitment and quickness in learning.

I am motivated to take the next step in my educational, professional and personal life and my dream is to live in Europe in pursuit of new experiences and learning about different cultures that I have not seen before.
